The accompanying unaudited interim condensed consolidated financial statements include the accounts of Green Thumb and have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information and in accordance with the rules and regulations of the U.S. Securities & Exchange Commission (“SEC”). Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements and, accordingly, certain information, footnotes and disclosures normally included in the annual financial statements, prepared in accordance with GAAP have been condensed or omitted in accordance with SEC rules and regulations. The financial data presented herein should be read in conjunction with the audited consolidated financial statements and accompanying notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2022, (the “2022 Form 10-K”). In the opinion of management, the financial data presented includes all adjustments necessary to present fairly the financial position, results of operations and cash flows for the interim periods presented. Certain previously reported amounts have been reclassified between line items to conform to the current period presentation. Results of interim periods should not be considered indicative of the results for the full year. These unaudited interim condensed consolidated financial statements include estimates and assumptions of management that affect the amounts reported in the unaudited condensed consolidated financial statements. Actual results could differ from these estimates.

(c) Significant Accounting Policies

There have been no changes to the Company’s significant accounting policies as described in Note 2 to the Company’s Consolidated Financial Statements included in the 2022 Form 10-K.

(d) Earnings per Share

Basic earnings per share is calculated using the treasury stock method, by dividing the net earnings attributable to shareholders by the weighted average number of common shares outstanding during each of the periods presented. Contingently issuable shares (including shares held in escrow) are not considered outstanding common shares and consequently are not included in the earnings per share calculation. Diluted earnings per share is calculated using the treasury stock method by adjusting the weighted average number of common shares outstanding to assume conversion of all dilutive potential common shares. The Company has three categories of potentially dilutive common share equivalents: restricted stock units, stock options and warrants. As of June 30, 2023, the Company had 10,874,051 options, 3,453,460 restricted stock units and 3,734,555 warrants outstanding. As of June 30, 2022, the Company had 6,036,849 options, 1,024,659 restricted stock units and 3,835,278 warrants outstanding.

1. Overview and Basis of Presentation *(Continued)*

(d) Earnings per Share *(Continued)*

In order to determine diluted earnings per share, it is assumed that any proceeds from the vesting of dilutive unvested restricted stock units, or exercise of unvested stock options and warrants would be used to repurchase common shares at the average market price during the period. Under the treasury stock method, the diluted earnings per share calculation excludes any potential conversion of stock options and convertible debt that would increase earnings per share or decrease loss per share. For the three months ended June 30, 2023, the computation of diluted earnings per share included 135,894 options, 287,259 restricted stock units. For the six months ended June 30, 2023, the computation of diluted earnings per share included 167,191 options, 1,587,917 restricted stock units. There were no dilutive warrants during the three and six months ended June 30, 2023 as the strike price was greater than the average stock price for the period. For the three months ended June 30, 2022, the computation of diluted earnings per share included 842,440 options, 34,451 restricted stock units and 102,387 warrants. For the six months ended June 30, 2022, the computation of diluted earnings per share included 1,310,817 options, 34,618 restricted stock units and 209,969 warrants. For the three and six months ended June 30, 2023, the weighted average number of anti-dilutive stock options excluded from the computation of diluted earnings per share were 3,399,518 and 3,473,866, respectively. For the three and six months ended June 30, 2022, the weighted average number of anti-dilutive stock options excluded from the computation of diluted earnings per share were 1,643,117 and 1,400,582, respectively.

The Company accounts for each real estate lease and the related non-lease components together as a single component.

The Company determines if an arrangement is a lease at inception. The Company must consider whether the contract conveys the right to control the use of an identified asset. Each Super Voting Share is entitled to 1,000 votes per share at shareholder meetings of the Company and is exchangeable for 100 Subordinate Voting Shares or one Multiple Voting Share. At June 30, 2023, the Company had 251,690 issued and outstanding Super Voting Shares which convert into 25,169,000 Subordinate Voting Shares. The Company is authorized to issue an unlimited number of Super Voting Shares.

(i) Distribution of Deferred Shares

As part of the consideration exchanged for certain acquisitions completed throughout 2021, the Company deferred the distribution of Subordinate Voting Shares to secure the Company's indemnification rights associated with post-acquisition costs. The following table summarizes the activity during the six months ended June 30, 2023:

Related Acquisition	As at December 31, 2022	Distributed Shares	Cancelled Shares	As at June 30, 2023
Liberty Compassion, Inc.	214,768	(214,768)	—	—

Total	1,318,546	(680,089)	(84,122)	554,335

As of June 30, 2023 and December 31, 2022, the Company held deferred shares in the amount of \$12,973 thousand and \$36,211 thousand, respectively. In accordance with the relevant acquisition agreement, a portion of the outstanding deferred shares were cancelled in order to indemnify the Company for post-acquisition costs. As the cancellation of the deferred shares occurred outside of the measurement period, rather than an adjustment to the purchase price allocation, the Company recorded a gain of \$2,784 thousand during the three and six months ended June 30, 2023. For the three and six months ended June 30, 2022, no such cancellations occurred.

(ii) Distribution of Contingent Consideration

Dharma Pharmaceuticals, LLC

In connection with the Company's 2021 acquisition of Dharma Pharmaceuticals, LLC ("Dharma"), the purchase agreement included contingent consideration of up to \$65,000 thousand in Subordinate Voting Shares of Green Thumb, dependent upon the successful opening of up to five retail stores in the Virginia area within the first three years following the signing of the agreement and the legal sale of adult-use cannabis in a retail store by January 1, 2025. On June 1, 2023, the Company issued 822,447 Subordinate Voting Shares to the former owners of Dharma in connection with the successful opening of the fourth retail store in Virginia. The shares had a fair value of \$6,070 thousand at the date of issuance. On June 28, 2023, the Company successfully opened a fifth retail store in Virginia. However, the shares associated with this achievement were not issued until July 2023. As the liability was no longer contingent upon a future event, the Company recorded an obligation of \$6,000 thousand, within accrued liabilities on the Company's unaudited interim condensed consolidated balance sheets representing the fair value of the Subordinate Voting Shares to be issued.

(c) Stock-Based Compensation

The Company operates equity settled stock-based remuneration plans for its eligible directors, officers, employees and consultants. All goods and services received in exchange for the grant of any stock-based payments are measured at their fair value unless the fair value cannot be estimated reliably. If the Company cannot estimate reliably the fair value of the goods and services received, the Company measures their value indirectly by reference to the fair value of the equity instruments granted. For transactions with employees and others providing similar services, the Company measures the fair value of the services by reference to the fair value of the equity instruments granted. Equity settled stock-based payments under stock-based payment plans are ultimately recognized as an expense in profit or loss with a corresponding credit to equity.

In June 2018, the Company established the Green Thumb Industries Inc. 2018 Stock and Incentive Plan, which was amended by Amendment No. 1 and Amendment No. 2 thereto (as amended, the “Plan”). The maximum number of Restricted Stock Units (“RSUs”) and options issued under the Plan shall not exceed 10% of the issued and outstanding shares on an as-converted basis.

The Company recognizes compensation expense for RSUs and options on a straight-line basis over the requisite service period of the award. Non-market vesting conditions are included in the assumptions about the number of options that are expected to become exercisable. Estimates are subsequently revised if there is any indication that the number of share options expected to vest differs from the previous estimate. Any cumulative adjustment prior to vesting is recognized in the current period with no adjustment to prior periods for expense previously recognized.

Option and RSU awards generally vest over three years, and options typically have a life of five to ten years. Option grants are determined by the Compensation Committee of the Company’s Board of Directors with the option price set at no less than 100% of the fair market value of a share on the date of grant.

Stock option activity is summarized as follows:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life
Balance as of December 31, 2022	9,577,947	\$12.71	4.80
Granted	2,172,481	7.75	6.73
Exercised	(130,508)	7.03	
Forfeited	(745,869)	10.75

Vested	5,666,427	\$14.91	
Exercisable of June 30, 2023	1,096,059	\$6.56	2.04

The Company used the Black-Scholes option pricing model to estimate the fair value of the options granted during the six months ended June 30, 2023 and the year ended December 31, 2022, using the following ranges of assumptions:

	June 30, 2023	December 31, 2022
Risk-free interest rate	3.06% - 3.64%	1.18% - 3.54%
Expected dividend yield	0%	0%
Expected volatility	64%	60% - 64%
Expected option life	3.5 – 4.5 years	3 – 4.5 years

As permitted under ASC 718, the Company has made an accounting policy choice to account for forfeitures when they occur.

(c) Stock-Based Compensation *(Continued)*

The following table summarizes the number of unvested RSU awards as of June 30, 2023 and December 31, 2022 and the changes during the six months ended June 30, 2023:

The stock-based compensation expense for the three and six months ended June 30, 2023 and 2022 was as follows:

As of June 30, 2023, \$51,798 thousand of total unrecognized expense related to stock-based compensation awards is expected to be recognized over a weighted-average period of 2.20 years.

10. INCOME TAX EXPENSE

The following table summarizes the Company's income tax expense and effective tax rates for the three and six months ended June 30, 2023 and 2022:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2023	2022	2023	2022
Income before Income Taxes	\$ 39,455	\$ 63,071	\$ 82,496	\$ 123,888
Income Tax Expense	25,765	38,340	59,401	69,471
Effective Tax Rate	65.3%	60.8%	72.0%	56.1%

The effective tax rates for the three and six months ended June 30, 2023 and 2022 were based on the Company's forecasted annualized effective tax rates and were adjusted for discrete items that occurred within the periods presented.

Due to its cannabis operations, the Company is subject to the limitations of the U.S. Internal Revenue Code of 1986, as amended ("IRC") Section 280E under which the Company is only allowed to deduct expenses directly related to sales of product. This results in permanent differences between ordinary and necessary business expenses deemed non-allowable under IRC Section 280E. Therefore, the effective tax rate can be highly variable and may not necessarily correlate with pre-tax income and provides for effective tax rates that are well in excess of statutory tax rates.

Taxes paid during the six months ended June 30, 2023 and 2022 were \$52,134 thousand and \$64,803 thousand, respectively.

11. OTHER INCOME (EXPENSE)

For the three and six months ended June 30, 2023 and 2022 other income (expense) was comprised of the following:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2023	2022	2023	2022

Total Other Income (Expense)	\$ (270)	\$ 5,583	\$ 654	\$ 17,018

12. COMMITMENTS AND CONTINGENCIES

The Company is subject to lawsuits, investigations and other claims related to employment, commercial and other matters that arise out of operations in the normal course of business. Periodically, the Company reviews the status of each significant matter and assesses the potential financial exposure. If the potential loss from any claim or legal proceeding is considered probable, and the amount can be reliably estimated, such amount is recognized in other liabilities.

Contingent liabilities are measured at management’s best estimate of the expenditure required to settle the obligation at the end of the reporting period and are discounted to present value where the effect is material. The Company performs evaluations to identify contingent liabilities for contracts. Contingent consideration is measured upon acquisition and is estimated using probability weighting of potential payouts. Subsequent changes in the estimated contingent consideration from the final purchase price allocation are recognized in the Company’s unaudited interim condensed consolidated statements of operations.

(a) Contingencies

The Company’s operations are subject to a variety of local and state regulations. Failure to comply with one or more of those regulations could result in fines, sanctions, restrictions on its operations, or losses of permits that could result in the Company ceasing operations in that specific state or local jurisdiction. The Company may be subject to regulatory fines, penalties, or restrictions in the future as cannabis and other regulations continue to evolve and are subject to differing interpretations.

(b) Claims and Litigation

From time to time, the Company may be involved in litigation relating to claims arising out of operations in the normal course of business. As of June 30, 2023, the following matter remains pending:

Cresco Labs New York, LLC and Cresco Labs LLC (“Plaintiffs”) filed an amended complaint against one of the Company’s subsidiaries, Fiorello Pharmaceuticals, Inc. (“Defendant”) on November 20, 2018, in the Supreme Court of the State of New York, alleging Defendant breached the parties’ Equity Purchase Agreement Letter of Intent (“LOI”) relating to the acquisition of Defendant by Plaintiffs. In December 2022, the trial court granted Plaintiffs’ motion for summary judgment on their claim that Defendant breached the LOI. However, Defendant successfully appealed the trial court’s decision, and in June 2023, the New York Appellate Court vacated the trial court’s decision on liability, and completely and unanimously reversed the trial court on the issue of damages, making clear that Plaintiffs, if Defendant is found liable, are limited to out-of-pocket damages. Plaintiffs have since sought the Appellate Division’s permission for further review from the New York Court of Appeals. As of June 30, 2023 and December 31, 2022, a \$900 thousand loss contingency was recorded within accrued liabilities on the unaudited interim condensed consolidated balance sheets as of each period end representing the Company’s estimate of out-of-pocket damages associated with the complaint.

At June 30, 2023, there were no pending or threatened lawsuits that could reasonably be expected to have a material effect on the results of the Company’s consolidated operations. There are also no proceedings in which any of the Company’s directors, officers or affiliates is an adverse party or has a material interest adverse to the Company’s interest.

(c) Construction Commitments

As of June 30, 2023, the Company held approximately \$22,000 thousand of open construction commitments to contractors on work being performed.

13. FAIR VALUE MEASUREMENTS

The Company applies fair value accounting for all financial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities that are required to be recorded at fair value, the Company considers all related factors of the asset by market participants in which the Company would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability, such as inherent risk, transfer restrictions, and credit risk.

The Company applies the following fair value hierarchy, which prioritizes the inputs used to measure fair value into three levels, and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly; and

Level 3 – Inputs for the asset or liability that are not based on observable market data.

(a) Financial Instruments

The Company's financial instruments consist of cash and cash equivalents, accounts receivable, investments, accounts payable and accrued liabilities, notes payable, warrant liability, and contingent consideration payable.

It was not practicable to estimate the fair value of the Company's long-term notes payable, which consist of charitable contributions, private placement debt and mortgage notes, since there were no quoted prices or active trading markets. The carrying amount of notes payable at June 30, 2023 and December 31, 2022 was \$289,905 thousand and \$275,668 thousand, which includes \$1,048 thousand and \$1,037 thousand, respectively, of short-term debt due within one year.

Financial instruments recorded at fair value are classified using a fair value hierarchy that reflects the significance of the inputs to fair value measurements. The fair values of the Company's financial instruments associated with each of the three levels of the hierarchy are:

14. SEGMENT REPORTING

The Company operates in two segments: the cultivation, production and sale of cannabis products to retail stores (“Consumer Packaged Goods”) and retailing of cannabis to patients and consumers (“Retail”). The Company does not allocate operating expenses to these business units, nor does it allocate specific assets. Additionally, the Chief Operating Decision Maker does not review total assets or net income (loss) by segments; therefore, such information is not presented below.

The below table presents revenues by type for the three and six months ended June 30, 2023 and 2022:

The Company’s assets are aggregated into two reportable segments (Retail and Consumer Packaged Goods). For the purposes of testing goodwill, Green Thumb has identified two reporting units which align with our reportable segments (Retail and Consumer Packaged Goods). All revenues are derived from customers domiciled in the United States and all assets are located in the United States.

ITEM 2. MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

This management discussion and analysis (“MD&A”) of the financial condition and results of operations of Green Thumb Industries Inc. (the “Company” or “Green Thumb”) is for the three and six months ended June 30, 2023 and 2022. It is supplemental to, and should be read in conjunction with, the Company’s unaudited interim condensed consolidated financial statements as of June 30, 2023 and the consolidated financial statements for the year ended December 31, 2022 included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2022 filed with the U.S. Securities and Exchange Commission on March 1, 2023 (the “2022 Form 10-K”) and the accompanying notes for each respective period. The Company’s financial statements are prepared in accordance with accounting principles generally accepted in the United States (“GAAP”). Financial information presented in this MD&A is presented in United States dollars (“\$” or “US\$”), unless otherwise indicated.

This MD&A contains certain “forward-looking statements” and certain “forward-looking information” as defined under applicable United States securities laws. Please refer to the discussion of forward-looking statements and information set out under the heading “Disclosure Regarding Forward-Looking Statements,” identified in the “Risks and Uncertainties” section of this MD&A and in Part II, Item 1A, “Risk Factors of the 2022 Form 10-K.” As a result of many factors, the Company’s actual results may differ materially from those anticipated in these forward-looking statements and information.

OVERVIEW OF THE COMPANY

Established in 2014 and headquartered in Chicago, Illinois, Green Thumb promotes well-being through the power of cannabis through branded consumer packaged goods and people-first retail experiences, while giving back to the communities in which it serves. As of June 30, 2023, Green Thumb has operations in fifteen U.S. markets, employs approximately 4,300 people and serves millions of patients and customers annually.

Green Thumb’s core business is manufacturing, distributing and marketing a portfolio of owned cannabis consumer packaged goods brands (which we refer to as our Consumer Packaged Goods business), including &Shine, Beboe, Dogwalkers, Doctor Solomon’s, Good Green, incredibles and RYTHM. The Company distributes and markets these products primarily to third-party licensed retail cannabis stores across the United States as well as to Green Thumb-owned retail stores (which we refer to as our Retail business).

The Company’s Consumer Packaged Goods portfolio is primarily generated from plant material that Green Thumb grows and processes itself, which we use to produce our consumer packaged goods in eighteen manufacturing facilities. This portfolio consists of stock keeping units across a range of cannabis product categories, including flower, pre-rolls, concentrates, vape, capsules, tinctures, edibles, topicals and other cannabis-related products (none of which product categories are individually material to the Company). These Consumer Packaged Goods products are sold in retail stores throughout the U.S. including at Green Thumb’s own RISE and other stores.

Green Thumb owns and operates a national cannabis retail chain called RISE that provides relationship-centric retail experiences aimed to deliver a superior level of customer service through high-engagement consumer interaction, a consultative, transparent and education-forward selling approach and a consistently available assortment of cannabis products. In addition, Green Thumb owns stores under other names, primarily where naming is subject to licensing or similar restrictions or in certain instances where we co-own the store. The income from Green Thumb’s retail stores is primarily derived from the sale of cannabis-related products, which includes the sale of Green Thumb produced products as well as those produced by third parties, with an immaterial (under 10%) portion of this income resulting from the sale of other merchandise (such as t-shirts and accessories for cannabis use). The RISE stores currently are located in fourteen of the states in which we operate. As of June 30, 2023, the Company had 83 open and operating retail stores. The Company’s new store opening plans will remain fluid depending on market conditions, obtaining local licensing, construction and other permissions and subject to the Company’s capital allocation plans.

Results of Operations – Consolidated

The following table sets forth the Company's selected consolidated financial results for the periods, and as of the dates, indicated. The (i) unaudited interim condensed consolidated statements of operations for the three and six months ended June 30, 2023 and 2022 and (ii) unaudited interim condensed consolidated balance sheet as of June 30, 2023 and December 31, 2022 have been derived from, and should be read in conjunction with, the unaudited interim condensed consolidated financial statements and accompanying notes presented in Item 1 of this quarterly report on Form 10-Q.

The Company's unaudited interim condensed consolidated financial statements have been prepared in accordance with GAAP and on a going-concern basis that contemplates continuity of operations and realization of assets and liquidation of liabilities in the ordinary course of business.

Drivers of Results of Operations

Revenue

The Company derives its revenue from two revenue streams: a Consumer Packaged Goods business in which it manufactures, sells and distributes its portfolio of Consumer Packaged Goods brands including Beboe, Dogwalkers, Dr. Solomon's, Good Green, incredibles, and RYTHM, primarily to third-party customers; and a Retail business in which it sells finished goods sourced primarily from third-party cannabis manufacturers in addition to the Company's own Consumer Packaged Goods products direct to the end consumer in its retail stores, as well as direct-to-consumer delivery where applicable by state law.

For the three and six months ended June 30, 2023, revenue was contributed from Consumer Packaged Goods and Retail sales across California, Colorado, Connecticut, Florida, Illinois, Maryland, Massachusetts, Minnesota, Nevada, New Jersey, New York, Ohio, Pennsylvania, Rhode Island and Virginia.

Gross Profit

Gross profit is revenue less cost of goods sold. Cost of goods sold includes the costs directly attributable to product sales and includes amounts paid for finished goods, such as flower, edibles, and concentrates, as well as packaging and other supplies, fees for services and processing, and allocated overhead which includes allocations of rent, utilities and related costs. Cannabis costs are affected by various state regulations that limit the sourcing and procurement of cannabis product, which may create fluctuations in gross profit over comparative periods as the regulatory environment changes. Gross margin measures our gross profit as a percentage of revenue.

During the six months ended June 30, 2023, the Company continued to be focused on creating sustainable, profitable growth of the Company's business within its current markets while considering strategic acquisition and partnership opportunities.

Total Expenses

Total expenses other than the cost of goods sold consist of selling costs to support customer relationships and marketing and branding activities. It also includes a significant investment in the corporate infrastructure required to support the Company's ongoing business.

Retail selling costs generally correlate to revenue. As new stores begin operations, these stores generally experience higher selling costs as a percentage of revenue compared to more established stores, which experience a more constant rate of selling costs. As a percentage of sales, the Company expects selling costs to remain constant in the more established stores and increase in the newer stores as business continues to grow.

General and administrative expenses also include costs incurred at the Company's corporate offices, primarily related to back office personnel costs, including salaries, incentive compensation, benefits, stock-based compensation and other professional service

costs, and fair value adjustments on the Company's contingent consideration arrangements. The Company expects to continue to invest considerably in this area to support the business by attracting and retaining top-tier talent. Furthermore, the Company anticipates an increase in stock-based compensation expenses related to recruiting and hiring talent, along with legal and professional fees associated with being a publicly traded company in Canada and registered with the U.S. Securities and Exchange Commission.

Provision for Income Taxes

The Company is subject to income taxes in the jurisdictions in which it operates and, consequently, income tax expense is a function of the allocation of taxable income by jurisdiction and the various activities that impact the timing of taxable events. As the Company operates in the federally illegal cannabis industry, it is subject to the limitations of the IRC Section 280E, under which taxpayers are only allowed to deduct expenses directly related to sales of product. This results in permanent differences between ordinary and necessary business expenses deemed non-allowable under IRC Section 280E and a higher effective tax rate than most industries. Therefore, the effective tax rate can be highly variable and may not necessarily correlate to pre-tax income or loss.

Non-GAAP Measures

EBITDA, and Adjusted EBITDA are non-GAAP measures and do not have standardized definitions under GAAP. The following information provides reconciliations of the supplemental non-GAAP financial measures, presented herein to the most directly comparable financial measures calculated and presented in accordance with GAAP. The Company has provided the non-GAAP financial measures, which are not calculated or presented in accordance with GAAP, as supplemental information and in addition to the financial measures that are calculated and presented in accordance with GAAP. Liquidity, Financing Activities During the Period, and Capital Resources

As of June 30, 2023, and December 31, 2022 the Company had total current liabilities of \$175,261 thousand and \$146,571 thousand, respectively, and cash and cash equivalents of \$149,026 thousand and \$177,682 thousand, respectively, to meet its current obligations. The Company had working capital of \$165,993 thousand as of June 30, 2023, a decrease of \$38,787 thousand as compared to December 31, 2022. This decrease in working capital was primarily driven by purchases of property, plant, and equipment, as well as tax payments made in the current period.

The Company is an early-stage growth company, generating cash from revenues, deploying its capital reserves to acquire and develop assets capable of producing additional revenues and earnings over both the immediate and long term. Capital reserves are primarily being utilized for capital expenditures, facility improvements, strategic investment opportunities, product development and marketing, as well as customer, supplier, and investor and industry relations.

The Company takes a cautious approach in allocating its capital to maximize its returns while ensuring appropriate liquidity. Given the current uncertainty of the future economic environment, the Company has taken additional measures in monitoring and deploying its capital to minimize the negative impact on its current operations and expansion plans.

There have been no changes in the Company's internal control over financial reporting during the second quarter of 2023 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Control Systems

Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, will be or have been detected. These inherent limitations include the realities that judgments in decision making can be faulty, and that breakdowns can occur because of simple errors or mistakes. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.
