(b) Basis of Presentation

The accompanying unaudited interim condensed consolidated financial statements include the accounts of Green Thumb and have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information and in accordance with the rules and regulations of the U.S. Securities & Exchange Commission (“SEC”). Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements and, accordingly, certain information, footnotes and disclosures normally included in the annual financial statements, prepared in accordance with GAAP, have been condensed or omitted in accordance with SEC rules and regulations. The financial data presented herein should be read in conjunction with the audited consolidated financial statements and accompanying notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2024 (the “2024 Form 10-K”). In the opinion of management, the financial data presented includes all adjustments necessary to present fairly the financial position, results of operations and cash flows for the interim periods presented. Previously reported amounts have been reclassified between line items where necessary to conform to the current period presentation. Results of interim periods should not be considered indicative of the results for the full year. These unaudited interim condensed consolidated financial statements include estimates and assumptions of management that affect the amounts reported in the unaudited condensed consolidated financial statements. Actual results could differ from these estimates.

(c) Significant Accounting Policies

There have been no changes to the Company’s significant accounting policies as described in Note 2 to the Company’s Consolidated Financial Statements included in the 2024 Form 10-K.

(d) Earnings per Share

Basic earnings per share is calculated using the treasury stock method, by dividing the net earnings attributable to shareholders by the weighted average number of common shares outstanding during each of the periods presented. Contingently issuable shares (including shares held in escrow) are not considered outstanding common shares and consequently are not included in the earnings per share calculation. Diluted earnings per share is calculated using the treasury stock method by adjusting the weighted average number of common shares outstanding to assume conversion of all dilutive potential common shares. The Company has three categories of potentially dilutive common share equivalents: restricted stock units, stock options and warrants. As of September 30, 2025, the Company had 7,911,149 options, 10,733,094 restricted stock units and 1,702,347 warrants outstanding. As of September 30, 2024, the Company had 8,491,983 options, 4,561,819 restricted stock units and 2,128,022 warrants outstanding.

1. Overview and Basis of Presentation *(Continued)*

In order to determine diluted earnings per share, it is assumed that any proceeds from the vesting of dilutive unvested restricted stock units, or exercise of unvested stock options and warrants would be used to repurchase common shares at the average market price during the period. Under the treasury stock method, the diluted loss per share calculation excludes any potential conversion of stock options and convertible debt that would increase earnings per share or decrease loss per share. For the three months ended September 30, 2025, the computation of diluted earnings per share included 2,389 options and 1,880,822 restricted stock units. There were no dilutive warrants during the three months ended September 30, 2025, as the relevant strike price was greater than the average stock price for the period. For the nine months ended September 30, 2025, the computation of diluted earnings per share included 2,694,632 restricted stock units. There were no dilutive options and warrants during the nine months ended September 30, 2025, as the relevant strike price was greater than the average stock price for the period. For the three months ended September 30, 2024, the computation of diluted earnings per share included 1,001,228 options, 923,686 restricted stock units and 67,625 warrants. For the nine months ended September 30, 2024, the computation of diluted earnings per share included 1,339,591 options, 1,669,708 restricted stock units and 104,041 warrants. For the three and nine months ended September 30, 2025, the weighted average number of anti-dilutive stock options excluded from the computation of diluted earnings per share were 874,088 and 1,390,862, respectively. For the three and nine months ended September 30, 2024, the weighted average number of anti-dilutive stock options excluded from the computation of diluted earnings per share were 869,491 and 918,464, respectively.

(e) Recently Issued Accounting Standards

- (i) In December 2023, the FASB issued ASU No. 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*, which is intended to provide enhancements to annual income tax disclosures. The standard will require more detailed information in the rate reconciliation table and for income taxes paid, among other enhancements. The standard is effective for years beginning after December 15, 2024 and early adoption is permitted. The adoption of this standard is not expected to have a material impact on the Company's consolidated financial statements.
- (ii) In November 2024, the Financial Accounting Standards Board ("FASB") issued ASU No. 2024-03, *Income Statement – Reporting Comprehensive Income – Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses*. This ASU requires an entity to disclose the amounts of purchases of inventory, employee compensation, depreciation, and intangible asset amortization included in each relevant expense caption. It also requires an entity to include certain amounts that are already required to be disclosed under current GAAP in the same disclosure. Additionally, it requires an entity to disclose a qualitative description of the amounts remaining in relevant expense captions that are not separately disaggregated quantitatively, and to disclose the total amount of selling expenses and, in annual reporting periods, an entity's definition of selling expenses. The amendments in the ASU are effective for annual reporting periods beginning after December 15, 2026 and interim reporting periods beginning after December 15, 2027, with early adoption permitted. An entity may apply the amendments prospectively for reporting periods after the effective date or retrospectively to any or all prior periods presented in the financial statements. The adoption of this standard is not expected to have a material impact on the Company's consolidated financial statements.

The Company reviews recently issued accounting standards on a quarterly basis and has determined there are no standards yet to be adopted which are relevant to the business for disclosure.

4. INTANGIBLE ASSETS AND GOODWILL

(a) Intangible Assets

Intangible assets are recorded at cost less accumulated amortization and impairment losses. Intangible assets acquired in a business combination are measured at fair value at the acquisition date. Amortization of definite life intangibles is provided on a straight-line basis over their estimated useful lives. The estimated useful lives, residual values, and amortization methods are reviewed at each year end, and any changes in estimates are accounted for prospectively.

At September 30, 2025 and December 31, 2024, intangible assets consisted of the following:

	September 30, 2025			December 31, 2024		
	Gross Carrying Amount	Accumulated Amortization (in thousands)	Net Book Value	Gross Carrying Amount	Accumulated Amortization (in thousands)	Net Book Value

As of September 30, 2025 and December 31, 2024, intangible assets are carried net of accumulated impairment losses of \$31,131 thousand as of each period then ended.

On June 11, 2025, the Company acquired a permit intangible, allowing the Company to operate three retail dispensaries. The consideration paid was \$10,500 thousand in cash. As substantially all of the assets acquired were concentrated in the permit intangible, the Company accounted for the transaction as an asset acquisition. The weighted average amortization period for the permit intangible was 15 years. Acquisition-related costs associated with the transaction were not material.

The following table outlines the estimated annual amortization expense related to intangible assets as of September 30, 2025:

Year Ending December 31,	Estimated Amortization (in thousands)
Remainder of 2025	\$ 12,162

5. INVESTMENTS

The Company measures its investments that do not have readily determinable fair value at cost minus impairment, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer. The Company performs an assessment on a quarterly basis to determine whether triggering events for impairment exist and to identify any observable price changes.

The following table summarizes the changes in the Company's investments during the nine months ended September 30, 2025 and year ended December 31, 2024:

The fair value of these notes receivable instruments include the initial investment and contractual accrued interest recorded within interest income on the unaudited interim condensed consolidated statements of operations.

All of the Company's notes receivable instruments are classified as trading securities and are included within investments on the Company's unaudited interim condensed consolidated balance sheets.

6. ACQUISITIONS

(a) Business Combinations:

The Company determined that the below described acquisition is a business combination under Accounting Standards Codification (“ASC”) 805, *Business Combinations*. It was accounted for by applying the acquisition method whereby the assets acquired, and the liabilities assumed were recorded at their fair values with any excess consideration over the fair value of the identifiable net assets was allocated to goodwill. Operating results have been included in these consolidated financial statements from the date of the acquisition. Supplemental pro forma financial information has not been presented as the impact was not material to the Company's consolidated financial statements. The goodwill recorded primarily includes the expected synergies resulting from combining the operations of the acquired entity with those of the Company.

The Company completed preliminary allocations of the purchase price of the assets acquired and liabilities assumed in association with three retail stores. The preliminary valuation was based on management’s estimates and assumptions which are subject to change within the measurement period (generally one year from the acquisition date). The details of the transaction are discussed below. The primary areas of the purchase price allocation that are not yet finalized relate to the valuation of the tangible and intangible assets acquired and the residual goodwill. The following table summarizes the initial accounting estimates:

	Retail Stores

7. LEASES

(a) Operating Leases

The Company has operating leases for its retail stores, processing and cultivation facilities and corporate office space. Operating lease right-of-use assets and operating lease liabilities are recognized based on the present value of future minimum lease payments over the lease term at commencement date.

The Company records material real estate and equipment leases with an initial term of twelve months or more on the balance sheet. Lease agreements for some locations provide for rent escalations and renewal options. Certain real estate leases require payment for fixed and variable non-lease components, such as taxes, insurance and maintenance, as part of base rent. In those circumstances, the Company elected the practical expedient to not separate the lease components from non-lease components.

The Company determines if an arrangement is a lease at inception. The Company must consider whether the contract conveys the right to control the use of an identified asset. Certain arrangements require significant judgment to determine if an asset is specified in the contract and if the Company directs how and for what purpose the asset is used during the term of the contract. For three and nine months ended September 30, 2025, the Company recorded operating lease expense of \$12,947 thousand and \$38,519 thousand, respectively compared to operating lease expense of \$16,946 thousand and \$41,622 thousand for three and nine months ended September 30, 2024, respectively.

Other information related to operating leases as of September 30, 2025 and December 31, 2024 were as follows:

Weighted average remaining lease term (years)	10.07	10.74
Weighted average discount rate	12.21%	12.23%

Mosaic Real Estate, LLC owns certain facilities leased by the Company and is owned in part by Benjamin Kovler, the Chairman and Chief Executive Officer of the Company (through KP Capital, LLC), and Anthony Georgiadis, the President and a director of the Company (through Three One Four Holdings, LLC). 9. SHARE CAPITAL

Common shares, which include the Company's Subordinate Voting Shares, Multiple Voting Shares and Super Voting Shares, are classified as equity. Incremental costs directly attributable to the issuance of common shares are recognized as a deduction from equity. The proceeds from the exercise of stock options or warrants together with amounts previously recorded in reserves over the applicable vesting periods are recorded as share capital. Income tax relating to transaction costs of an equity transaction is accounted for in accordance with ASC 740, *Income Taxes*.

The Company has the following classes of share capital, with each class having no par value:

(i) Subordinate Voting Shares

The holders of the Subordinate Voting Shares are entitled to receive dividends which may be declared from time to time and are entitled to one vote per share at meetings of the Company's shareholders. All Subordinate Voting Shares are ranked equally with regard to the Company's residual assets. The Company is authorized to issue an unlimited number of no par value Subordinate Voting Shares.

(ii) Multiple Voting Shares

Each Multiple Voting Share is entitled to 100 votes per share at shareholder meetings of the Company and is exchangeable for 100 Subordinate Voting Shares. The Company is authorized to issue an unlimited number of Multiple Voting Shares.

(iii) Super Voting Shares

9. SHARE CAPITAL *(Continued)*

(i) Distribution of Deferred Shares

As part of the consideration exchanged for acquisitions completed in previous periods, the Company deferred the distribution of Subordinate Voting Shares to secure the Company's indemnification rights associated with post-acquisition costs.

The following table summarizes the activity during the nine months ended September 30, 2025:

	Related Acquisition		Total
	Mobley Pain Management and Wellness Center, LLC and Canwell Processing, LLC	LeafLine Industries, LLC	
As at January 1, 2025	168,333	76,665	244,998
Distributed Shares	(168,333)	(76,653)	(244,986)
Cancelled Shares	—	(12)	(12)
As at September 30, 2025	—	—	—

(ii) Repurchase of Subordinate Voting Shares

The Company's Board of Directors authorized a new share repurchase program that commenced on September 23, 2025, immediately following the expiration of the Company's prior share repurchase program on September 22, 2025. The new program authorizes the Company to repurchase up to 10,364,640 of its Subordinate Voting Shares over a 12-month period at an aggregate cost of up to \$50,000 thousand.

Under the Company's previous share repurchase program, a total of 6,965,000 Subordinate Voting Shares were purchased for \$34,441 thousand of which 5,718,000 Subordinate Voting Shares for \$24,811 thousand were repurchased during the nine months ended September 30, 2025.

The Company has returned \$107,100 thousand to shareholders in the form of share repurchases from the commencement of its share repurchase programs on September 11, 2023 through September 30, 2025.

(c) Stock-Based Compensation

The Company operates equity settled stock-based remuneration plans for its eligible directors, officers, employees and consultants. All goods and services received in exchange for the grant of any stock-based payments are measured at their fair value unless the fair value cannot be estimated reliably. If the Company cannot estimate reliably the fair value of the goods and services received, the Company measures their value indirectly by reference to the fair value of the equity instruments granted. For transactions with employees and others providing similar services, the Company measures the fair value of the services by reference to the fair value of the equity instruments granted. Equity settled stock-based payments under stock-based payment plans are ultimately recognized as an expense in profit or loss with a corresponding credit to equity.

In June 2018, the Company established the Green Thumb Industries Inc. 2018 Stock and Incentive Plan, which was amended by Amendment No. 1, Amendment No. 2, Amendment No. 3 and Amendment No. 4 thereto (as amended, the "Plan"). The maximum number of RSUs and options outstanding under the Plan at any time shall not exceed 15% of the then issued and outstanding shares on an as-converted basis.

The Company recognizes compensation expense for RSUs and options on a straight-line basis over the requisite service period of the award. Non-market vesting conditions are included in the assumptions about the number of options that are expected to become exercisable. Estimates are subsequently revised if there is any indication that the number of options expected to vest differs from the previous estimate. Any cumulative adjustment prior to vesting is recognized in the current period with no adjustment to prior periods for expense previously recognized. Option and RSU awards generally vest over three years, and options typically have a life of seven to ten years. Option grants under the Plan are determined by the Compensation Committee of the Company's Board of Directors with the option price set at no less than 100% of the fair market value of a share on the date of grant.

The Company used the Black-Scholes option pricing model to estimate the fair value of the options granted during the nine months ended September 30, 2025 and the year ended December 31, 2024, using the following ranges of assumptions:

	September 30, 2025	December 31, 2024
Risk-free interest rate	3.63% - 4.33%	2.72% - 3.92%
Expected dividend yield	0%	0%
Expected volatility	62% - 64%	62% - 64%
Expected option life	3.76 - 4.68 years	4.46 - 4.5 years

As permitted under ASC 718, the Company has made an accounting policy choice to prospectively account for forfeitures when they occur.

The following table summarizes the number of unvested RSU awards as of September 30, 2025 and December 31, 2024 and the changes during the nine months ended September 30, 2025:

10. INCOME TAX EXPENSE

The following table summarizes the Company's income tax expense and effective tax rates for the three and nine months ended September 30, 2025 and 2024:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
	(in thousands)			
Income before Income Taxes	\$ 72,923	\$ 39,703	\$ 134,947	\$ 156,017
Income Tax Expense	49,122	30,922	102,013	94,970
Effective Tax Rate	67.4%	77.9%	75.6%	60.9%

The effective tax rates for the three months ended September 30, 2025 and 2024 were based on the Company's forecasted annualized effective tax rates and were adjusted for discrete items that occurred within the periods presented.

The IRS has taken the position that cannabis companies are subject to the limitations of the U.S. Internal Revenue Code of 1986, as amended ("IRC") Section 280E under which cannabis companies are only allowed to deduct expenses directly related to sales of product. This results in permanent differences between ordinary and necessary business expenses deemed non-allowable under IRC Section 280E. Therefore, the effective tax rate can be highly variable and may not necessarily correlate with pre-tax income and provides for effective tax rates that are well in excess of statutory tax rates.

Taxes paid during the nine months ended September 30, 2025 and 2024 were \$22,055 thousand and \$87,946 thousand, respectively.

12. COMMITMENTS AND CONTINGENCIES

The Company is subject to lawsuits, investigations and other claims related to employment, commercial and other matters that arise out of operations in the normal course of business. Periodically, the Company reviews the status of each significant matter and assesses the potential financial exposure. If the potential loss from any claim or legal proceeding is considered probable, and the amount can be reliably estimated, such amount is recognized in other liabilities.

Contingent liabilities are measured at management's best estimate of the expenditure required to settle the obligation at the end of the reporting period and are discounted to present value where the effect is material. The Company performs evaluations to identify contingent liabilities for contracts. Contingent consideration is measured upon acquisition and is estimated using probability weighting of potential payouts. Subsequent changes in the estimated contingent consideration from the final purchase price allocation are recognized in the Company's unaudited interim condensed consolidated statements of operations.

(a) Contingencies

The Company's operations are subject to a variety of local and state regulations. Failure to comply with one or more of those regulations could result in fines, sanctions, restrictions on its operations, or losses of permits that could result in the Company ceasing operations in that specific state or local jurisdiction. The Company may be subject to regulatory fines, penalties, or restrictions in the future as cannabis and other regulations continue to evolve and are subject to differing interpretations.

(b) Claims and Litigation

From time to time, the Company may be involved in litigation relating to claims arising out of operations in the normal course of business. The following is an update to the status of the previously disclosed matters as of September 30, 2025:

In July 2024, the Company received Findings of Fact and Conclusions of Law regarding an October 30, 2019 complaint filed against the Company alleging the Company breached a commercial property lease with ineffective termination. On June 25, 2025, the Company received the Final Judgment from the court ruling in favor of plaintiff landlord in the amount of \$7,307 thousand, representing unpaid rent. In addition, the court found the Company liable for interest and attorney fees in the amount of \$912 thousand. As a result, the Company accrued the amount of probable loss that can reasonably be estimated within accrued liabilities on the unaudited interim condensed consolidated balance sheets.

In August 2025, the Company appealed the Final Judgment with a Notice of Appeal. Under the Rules of Court, the Company was provided a stay on the enforcement of the Final Judgment upon posting a supersedeas bond in the amount of the Final Judgment plus interest and costs through the appeal period. As of September 30, 2025, the Company held the bond in the amount of \$9,202 thousand within restricted cash and cash equivalents on the Company's unaudited interim condensed consolidated balance sheets.

At September 30, 2025 and December 31, 2024, other than as discussed above, there were no pending or threatened lawsuits considered probable or reasonably possible to result in an unfavorable outcome with an exposure expected to merit disclosure. There are also no proceedings in which any of the Company's directors, officers or affiliates is an adverse party or has a material interest adverse to the Company's interest.

13. FAIR VALUE MEASUREMENTS

The Company applies fair value accounting for all financial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities that are required to be recorded at fair value, the Company considers all related factors of the asset by market participants in which the Company would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability, such as inherent risk, transfer restrictions, and credit risk.

The Company applies the following fair value hierarchy, which prioritizes the inputs used to measure fair value into three levels, and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly; and

Level 3 – Inputs for the asset or liability that are not based on observable market data.

(a) Financial Instruments

The Company's financial instruments consist of cash and cash equivalents, accounts receivable, investments, accounts payable and accrued liabilities, notes payable, warrant liability, and contingent consideration payable.

It was not practicable to estimate the fair value of the Company's long-term notes payable, which consist of the Credit Facility and mortgage notes, since there were no quoted market prices or active trading markets. The carrying amount of notes payable at September 30, 2025 and December 31, 2024 was \$247,449 thousand and \$254,958 thousand, respectively, which includes \$17,264 thousand and \$12,062 thousand, respectively, of short-term debt due within one year.

Financial instruments recorded at fair value are classified using a fair value hierarchy that reflects the significance of the inputs to fair value measurements. The fair values of the Company's financial instruments associated with each of the three levels of the hierarchy are:

As of September 30, 2025

14. RELATED PARTY

On November 5, 2024, the Company acquired a noncontrolling financial interest in Agrify Corporation (now known as RYTHM and referred to herein as "RYTHM"), in exchange for \$15,000 thousand in cash and \$3,280 thousand in Subordinate Voting Shares of Green Thumb. As part of the transaction, the Company also acquired warrants that would allow the Company to extend its ownership stake if exercised, subject to certain beneficial ownership limitations - all of which remain outstanding as of September 30, 2025 and December 31, 2024, respectively. In addition, on November 5, 2024, the Company extended a convertible secured note to RYTHM (the "Original Notes"), the carrying value of which was \$10,000 thousand as of September 30, 2025 and December 31, 2024. The Original Notes, bear interest at an annualized rate of 10%. On November 5, 2025, the Original Notes matured and were exchanged for 3,222,997 pre-funded warrants representing the principal amount plus accrued interest due on such date.

Benjamin Kovler, Chairman and Chief Executive Officer of Green Thumb, and Armon Vakali, Vice President, Strategic Initiatives and Partnerships of Green Thumb, were appointed by RYTHM's Board of Directors to serve as RYTHM's Chairman and Interim Chief Executive Officer and member of RYTHM's Board, respectively.

Green Thumb's investment in RYTHM had a carrying value of \$15,648 thousand and \$18,873 thousand as of September 30, 2025 and December 31, 2024, respectively. Such amounts were included within investment in associates on the Company's unaudited interim condensed consolidated balance sheets. As of September 30, 2025 and December 31, 2024, the Company held a 34% ownership interest in RYTHM and accounted for its investment using the equity method due to the significant influence Green Thumb has the ability to exert over RYTHM.

On May 20, 2025, Green Thumb entered into an agreement with RYTHM whereby Green Thumb agreed to sell its intellectual property in its incredibles brand as well as its farm bill compliant hemp business, operated in its former subsidiary, Core Growth LLC for \$5,075 thousand in cash. As part of the transaction, RYTHM agreed to license the intellectual property back to Green Thumb allowing the Company to continue production and sale of incredibles branded products. Separately, Green Thumb agreed to license its intellectual property in Beboe and RYTHM branded products to RYTHM (the "May Licensing Agreement"). As a result of the transaction, Green Thumb recorded a loss on the sale of \$11,678 thousand within other income (expense) on the unaudited interim condensed consolidated statement of operations.

On May 22, 2025, RYTHM and Green Thumb amended the Original Notes to allow Green Thumb to receive pre-funded warrants in lieu of shares of RYTHM upon conversion of the Original Notes. No other terms of the Original Notes were amended. In addition, Green Thumb extended an additional \$27,000 thousand in convertible notes (the "May 2025 Notes") to RYTHM, due November 22, 2026. Other than the amount and maturity date, all of the terms of the May 2025 Notes are consistent with the Original Notes, as amended.

On August 25, 2025, Green Thumb extended another Convertible Note in the amount of \$45,000 thousand (the "August 2025 Notes") to RYTHM. The August 2025 Notes are a secured obligation of RYTHM and rank senior to all indebtedness of RYTHM except for the Original Notes and May 2025 Notes (collectively the "Existing Notes"), which rank on parity with the August 2025 Notes. The August 2025 Notes mature on February 25, 2027 and bear interest at an annualized rate of 10%. The August 2025 Notes may be converted into shares of RYTHM or, at the election of the holder, into pre-funded warrants, with a beneficial ownership limitation of 49.99%, subject to applicable Nasdaq listing rules. If converted into common shares of RYTHM, the conversion price per share will be \$29.475.

As of September 30, 2025 and December 31, 2024, the Company recorded accrued interest of \$2,326 thousand and \$156 thousand, respectively, on the notes receivable.

On August 27, 2025, Green Thumb agreed to sell its intellectual property rights in brands including RYTHM, Beboe, Dogwalkers, Doctor Solomon's, & Shine and Good Green for \$50,000 thousand in cash. As part of the transaction, RYTHM agreed to license the intellectual property back to Green Thumb and to cancel the May Licensing Agreement between RYTHM and the Company. Further, upon closing, Agrify Corporation formally changed its name to RYTHM, Inc. As a result of the transaction, Green Thumb recorded a gain on the sale of \$41,554 thousand within other income (expense) on the unaudited interim condensed consolidated statement of operations.

As of September 30, 2025 and December 31, 2024, Green Thumb performed various services for RYTHM, pursuant to the shared services agreement, for which the Company was owed \$4,269 thousand and \$319 thousand, respectively.

OVERVIEW OF THE COMPANY

Established in 2014 and headquartered in Chicago, Illinois, Green Thumb, a national cannabis consumer packaged goods company and retailer, promotes well-being through the power of cannabis while being committed to community and sustainable, profitable growth. As of September 30, 2025, Green Thumb has operations in fourteen U.S. markets, employs approximately 4,800 people and serves millions of patients and customers annually.

Green Thumb’s core business is manufacturing, distributing and marketing a portfolio of cannabis consumer packaged goods brands (which we refer to as our Consumer Packaged Goods business), including &Shine, Beboe, Dogwalkers, Doctor Solomon’s, Good Green, incredibles and RYTHM. The Company distributes and markets these products primarily to third-party licensed retail cannabis stores across the United States as well as to Green Thumb-owned retail stores (which we refer to as our Retail business).

In addition, an immaterial portion of the Company’s business involves producing products containing hemp-derived tetrahydrocannabinol (“THC”) such as Delta-8 THC and Delta-9 THC.

The Company’s Consumer Packaged Goods portfolio is primarily generated from plant material that Green Thumb grows and processes itself, which we use to produce our consumer packaged goods in twenty manufacturing facilities. This portfolio consists of cannabis product categories, including flower, pre-rolls, concentrates, vape, capsules, tinctures, edibles, topicals, as well as other cannabis-related products across a range of stock keeping units (“SKUs”) (of which none of these product categories are individually material to the Company).

Green Thumb owns and operates a national cannabis retail chain called RISE Dispensaries that aims to bring patients and customers a variety of high-quality products at multiple price points and provide excellent service. In addition, Green Thumb owns stores under other names, primarily where naming is subject to licensing or similar restrictions. The income from Green Thumb’s retail stores is primarily derived from the sale of cannabis-related products, which includes the sale of Green Thumb produced products as well as those produced by third parties, with an immaterial (under 10%) portion of this income resulting from the sale of other merchandise (such as t-shirts and accessories for cannabis use). RISE Dispensaries currently are located in the fourteen states in which we operate. As of September 30, 2025, the Company had 108 open and operating Retail stores. The Company’s new store opening plans will remain fluid depending on market conditions, obtaining local licensing, construction and other permissions and subject to the Company’s capital allocation plans as described under the heading “Liquidity, Financing Activities During the Period, and Capital Resources” below.

Due to the vertically integrated nature of the business, the Company reviews its revenue at the Retail and Consumer Packaged Goods level while reviewing its operating results on a consolidated basis.

Drivers of Results of Operations

Revenue

The Company derives its revenue from two revenue streams: a Consumer Packaged Goods business in which it manufactures, sells and distributes a portfolio of Consumer Packaged Goods brands including &Shine, Beboe, Dogwalkers, Dr. Solomon's, Good Green, incredibles and RYTHM, primarily to third-party customers; and a Retail business in which it sells finished goods sourced primarily from third-party cannabis manufacturers in addition to the Company's own Consumer Packaged Goods products direct to the end consumer in its Retail stores, as well as direct-to-consumer delivery where permitted by state law.

For the three and nine months ended September 30, 2025, revenue was contributed from Retail and Consumer Packaged Goods sales across California, Connecticut, Florida, Illinois, Maryland, Massachusetts, Minnesota, Nevada, New Jersey, New York, Ohio, Pennsylvania, Rhode Island and Virginia.

Gross Profit

Gross profit is revenue less cost of goods sold. Cost of goods sold includes the costs directly attributable to product sales and includes amounts paid for finished goods, such as flower, edibles, and concentrates, as well as packaging and other supplies, fees for services and processing, and allocated overhead which includes allocations of rent, utilities and related costs. Cannabis costs are affected by various state regulations that limit the sourcing and procurement of cannabis product, which may create fluctuations in gross profit over comparative periods as the regulatory environment changes. Gross margin measures our gross profit as a percentage of revenue.

During the three and nine months ended September 30, 2025, the Company continued to focus on creating sustainable, profitable growth of the Company's business while pursuing expansion. Green Thumb expects to continue its growth strategy for the foreseeable future as the Company expands its Consumer Packaged Goods and Retail footprint within its current markets with acquisitions and partnerships, and scales resources into new markets.

Total Expenses

Total expenses other than the cost of goods sold consist of selling costs to support customer relationships and marketing and branding activities. It also includes a significant investment in the corporate infrastructure required to support the Company's ongoing business.

Retail selling costs generally correlate to revenue. As new stores begin operations, these stores generally experience higher selling costs as a percentage of revenue compared to more established stores, which experience a more constant rate of selling costs. As a percentage of sales, the Company expects selling costs to remain constant in the more established stores and increase in the newer stores as business continues to grow.

General and administrative expenses include costs incurred at the Company's corporate offices, primarily related to back office personnel costs, including salaries, incentive compensation, benefits, stock-based compensation and other professional service costs, and fair value adjustments on the Company's contingent consideration arrangements. The Company expects to continue to invest considerably in this area, in particular, stock-based compensation expense is expected to continue to increase in order to support the business by attracting and retaining top-tier talent. General and administrative expenses also include professional fees associated with being a publicly traded company in Canada and registered with the SEC.

Provision for Income Taxes

The Company is subject to income taxes in the jurisdictions in which it operates, and consequently, income tax expense is a function of the allocation of taxable income by jurisdiction and the various activities that impact the timing of taxable events. The IRS has taken the position that companies that operate in the federally illegal cannabis industry, are subject to the limitations of the U.S. Internal Revenue Code of 1986, as amended ("IRC") Section 280E, under which taxpayers are only allowed to deduct expenses directly related to sales of product. This results in permanent differences between ordinary and necessary business expenses deemed non-allowable under IRC Section 280E. Therefore, the effective tax rate can be highly variable and may not necessarily correlate with pre-tax income and provides for effective tax rates that are well in excess of statutory tax rates.

Non-GAAP Measures

EBITDA, and Adjusted EBITDA are non-GAAP measures and do not have standardized definitions under GAAP. The following information provides reconciliations of the supplemental non-GAAP financial measures, presented herein to the most directly comparable financial measures calculated and presented in accordance with GAAP. The Company has provided the non-GAAP financial measures, which are not calculated or presented in accordance with GAAP, as supplemental information and in addition to the financial measures that are calculated and presented in accordance with GAAP. As of September 30, 2025, and December 31, 2024 the Company had total current liabilities of \$241,553 thousand and \$164,969 thousand, respectively, and cash and cash equivalents of \$226,211 thousand and \$171,687 thousand, respectively, to meet its current obligations. The Company had working capital of \$235,909 thousand as of September 30, 2025, a decrease of \$3,022 thousand as compared to December 31, 2024. This decrease in working capital was primarily driven by acquisitions as well as the repurchase of 5,718,000 Subordinate Voting Shares through the Company's share repurchase program.

The Company generates cash from its operations and deploys its capital reserves to acquire and develop assets capable of producing additional revenues and earnings over both the immediate and long term. Capital reserves are primarily being utilized for capital expenditures, facility improvements, strategic investment opportunities, product development and marketing, as well as customer, supplier, and investor and industry relations.

The Company takes a cautious approach in allocating its capital to maximize its returns while ensuring appropriate liquidity. Given the current uncertainty of the future economic environment, the Company has taken additional measures in monitoring and deploying its capital to minimize the negative impact on its current operations and expansion plans.

Off-Balance Sheet Arrangements

As of September 30, 2025, the Company does not have any off-balance-sheet arrangements that have, or are reasonably likely to have, a current or future effect on the results of operations or financial condition of the Company, including, and without limitation, such considerations as liquidity and capital resources.

Changes in or Adoption of Accounting Practices

Refer to the discussion of recently adopted/issued accounting pronouncements under Part I, Item 1, Notes to Unaudited Interim Condensed Consolidated Financial Statements, Note 1—Overview and Basis of Presentation.

Critical Accounting Policies and Significant Judgments and Estimates

There were no material changes to our critical accounting policies and estimates from the information provided in “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” included in our 2024 Form 10-K.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes to our market risk disclosures as set forth in Part II Item 7A of our 2024 Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company's management carried out an evaluation under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act). Based upon that evaluation, management concluded that our disclosure controls and procedures were effective as of September 30, 2025.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal control over financial reporting during the third quarter of 2025 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Control Systems

Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, will be or have been detected. These inherent limitations include the realities that judgments in decision making can be faulty, and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, the Company may be involved in litigation relating to claims arising out of operations in the normal course of business. The following is an update to the status of previously disclosed matters as of September 30, 2025:

In July 2024, the Company received Findings of Fact and Conclusions of Law regarding an October 30, 2019 complaint filed against the Company alleging the Company breached a commercial property lease with ineffective termination. On June 25, 2025, the Company received the Final Judgment from the court ruling in favor of plaintiff landlord in the amount of \$7,307 thousand, representing unpaid rent. In addition, the court found the Company liable for interest and attorney fees in the amount of \$912 thousand. As a result, the Company accrued the amount of probable loss that can reasonably be estimated within accrued liabilities on the unaudited interim condensed consolidated balance sheets.

In August 2025, the Company appealed the Final Judgment with a Notice of Appeal. Under the Rules of Court, the Company was provided a stay on the enforcement of the Final Judgment upon posting a supersedeas bond in the amount of the Final Judgment plus interest and costs through the appeal period. As of September 30, 2025, the Company held the bond in the amount of \$9,202 thousand within restricted cash and cash equivalents on the Company's unaudited interim condensed consolidated balance sheets.

At September 30, 2025 and December 31, 2024, other than as discussed above, there were no pending or threatened lawsuits considered probable or reasonably possible to result in an unfavorable outcome with an exposure expected to merit disclosure. There are also no proceedings in which any of the Company's directors, officers or affiliates is an adverse party or has a material interest adverse to the Company's interest.

ITEM 1A. RISK FACTORS
